

Second to None

Starting the New Year Off Right!!

Jackson Elementary Second Graders are starting the New Year off right. The students are doing well with their spelling patterns. Not only are they making great progress in their graphophonemic knowledge, but they are doing a tremendous job in improving their fluency rates.

The Second Graders also participated in the mid-year math benchmark exam. Students displayed their knowledge with math concepts such as recognizing patterns, regrouping with two digit addition and subtraction, and counting money. Way to go Second Graders!

We would like to recognize the second grade students who have achieved academic success for the third six weeks and first semester.
