

NOTICE TO PARENTS

As part of our commitment to provide your child with a safe, pest-free learning environment, the Chapel

Hill School District may periodically apply pesticides to help manage insects, weeds or pathogens.

Pesticide applications are part of our integrated pest management (IPM) program, which relies largely on

non-chemical forms of pest control. Pesticide applications on Chapel Hill School District property are made only by trained and licensed technicians (Orkin). Should you have questions about this district's pest

management program or wish to be notified in advance of pesticide applications, you may contact our

Director of Operations & Facilities: Dean Rodgers @ 903-566-2441
